Profile

Fresh graduate electrical engineering student seeking a internship/training/job opportunity Energetic willing to commit and eager to learn new things, punctual and organized

Education

Bachelor of electrical energy engineering, summer 2021

Cairo University, Faculty of Engineering, Giza, Egypt

Major: Electrical Energy Engineering

Thanawaya Amma, June (2016)

Patrichal Collage Languages School, Cairo.

Graduation Project

Title: Smart Led Lighting Pole

Field: Power Electronics

Grade: A

Fields of interest

Automation control

Installation

Power electronics

Distribution

Previous experiences

Trained at الشركه القابضه لكهرباء مصر تدريب المحطات بمركز تدريب محطه شمال القاهره

The training covered electrical machines, classic control, and protection

From 6/9/2020 to 24/9/2020

Visited Shubra El-Kheima power generation station with an educational tour for every section of the station

Trained at Perfect el Arabia Cable manufacturer from 1/7/2021 to 15/7/2021

Cairo university control labs august 2021

Skills

• Languages: Arabic (native), English (Excellent)

• Programming Skills: Ladder programming (V.Good),Sequential function blocks (Good), Statement list (Good), MATLAB (Very Good), C (Good), Arduino IDE (V.Good), C++ (Good), Assembly (Good),

Voluntary Work

- Distributed and packed food with Resala 2016 Campaign
- Organized party for orphans with Cairo University faculty of Engineering student activity Credit Club 2018

Sports

Handball: Played for el Zamalek SC Academy 2011-2016

Won Ciro university handball championship with faculty of engineering team

Goals

As a nearly fresh graduate engineer I want to gain as much experience as I could to help me become someone who leaves a good mark wherever I go knowing that I am willing to learn to learn to become an engineer who made himself, his organization proud through what he offered, and to gain as much field experience to help me be a good engineer
